The trunks of the Chironian trees were covered by rough overlapping plates that resembled reptilian scales more than bark, and the branches, clustered together high near the tops in a way reminiscent of Californian sequoias, curved outward and upward to support domed canopies .of foliage like the caps of gigantic mushrooms. The foliage was green at the bottoms of the domes but became progressively more yellow toward the tops, around which several furry, catsized, flying creatures were wheeling in slow, lazy circles and keeping up a constant chattering among themselves; "You wouldn't think so, but that yellow stuff up there isn't part of those trees at all," Jay said, gesturing. "Jeeves told me about it. It's a completely different species--a kind of fern. Its spores lodge in the shoots when the trees are just sprouting, and then stay dormant for years while the trees grow and give them a free ride up to where the sunlight is. It invades the leaf-buds and feeds through the tree's vascular system." Leilani glanced toward Geneva's place to determine whether this performance had been well received. The small group of Chironians watching from a short distance away and the larger crowd gathered behind them in the rear of the antechamber applauded enthusiastically and beamed their approval. Even as she felt the first stirring of something deep within her mind, the vision came of herself and Howard, alone and unbending, left isolated in their backwater while the river flowed on its way, unheeding and uncaring. After twenty years, nothing lay ahead but emptiness and oblivion. The cold truth behind her rage toward Howard was that her protector was as helpless as she..she sat. "But, sweetie, I remember so clearly . . . the wonderful satisfaction of shooting him." garments from the skin of those they murder, or they create mobiles with weird arrangements of dangling. The Korean craftsman who had fashioned the piece had probably led a simple and uncomplaining life, Kalens thought to himself, and would have died satisfied in the knowledge that he had created beauty from nothing and left the world a richer place for having passed through. Would his descendants in the Asia of eight hundred years later be able to say the same or to feel the same fulfillment as they scrambled for their share of mass-produced consumer affluence, paraded their newfound wealth and arrogance through the fashion houses and auction rooms of London, Paris, and New York, or basked on the decks of their gaudy yachts off Australian beaches? Kalens very much doubted it. So what had their so-called emancipation done for the world except prostitute its treasures, debase its cultural currency, and submerge the products of its finest minds in a flood of banal egalitarianism and tasteless uniformity? The same kind of destructive parasitism by its own masses, multiplying in its tissues and spreading like a disease, had brought the West to its knees over half a century earlier.. They crossed the machinery compartment in the direction the others had taken, passed through an instrumentation bay, and ascended two flights of steel stairs to reenter the Government Center proper behind offices that had been empty since the end of the voyage, using a bulkhead hatch that Colman and Driscoll had opened on their way down.
