A quick survey of the lavatory floor. The musician hadn't left anything behind, neither a popped button nor crimson petals from his boutonniere..Of the curiosities Junior uncovered, Frieda's weapons interested him most. Guns were stashed throughout the apartment: revolvers, pistols, and two pistol-grip shotguns. Sixteen altogether..He tugged on a pair of thin latex surgical gloves. Flexed his hands. All right.."I'm not saying there's anything wrong with it, you understand," Neddy whispered with a sort of fierce conciliation, "but I'm not gay, and I'm not interested in teaching you the piano or anything else. Besides, after the stories Renee told about you, I can't imagine why you think any friend of his ... hers would get near you. You need help. Renee is what she is, but she's not a bad person, she's generous and she's sweet. She doesn't deserve to be beaten, abused, and ... and all those horrible things you did. Excuse me."..She figured that she could stay home, devoting herself to Barty, for perhaps three years before she would be wise to find work..They were each down to one last sip of wine, studying dessert menus, when Celestina began to wonder if, in spite of all instincts and indications, she might be wrong about the state of Wally's heart. The signs seemed clear, and if his radiance wasn't love, then he must be dangerously radioactive-yet she might be wrong. She was a woman of some insight, quite sophisticated in many ways, with the raw-nerve perceptions of an artist; however, in matters of romance, she was an innocent, perhaps even more pitifully naive than she realized. As she perused the list of cakes and tarts and homemade ice creams, she allowed doubt to feed upon her, and as the thought grew that Wally might not love her that way, after all, she became desperate to know, to end the suspense, because if she didn't mean to him what he meant to her, then Daddy was just going to have to accept her conversion from Baptist to Catholic, because she and Angel would have to spend some serious heart-recovery time in a nunnery..To achieve certain narrative effects, I've fiddled slightly with the floor plan and the interior design of St. Mary's Hospital in San Francisco. In this story, the characters who work at St. Mary's are fictional and are not modeled after anyone on the staff of that excellent institution, either past or present..Judging by the sounds Vanadium made, Junior figured that the cop had settled once more into the armchair..He wondered what it would be like to make love to Renee and kill her. Only once had he killed without good reason. And that had been one of the infuriating Bartholomews. Prosser in Terra Linda. A man. On that occasion, no erotic element had been involved. This would be a first..The friendship, the work, and not least of all the sense of home and belonging that everyone felt within minutes of crossing Agnes's threshold-these things appealed to Celestina and Grace. But they didn't want Paul to feel that his hospitality was unappreciated..Tom believed that the girl had an intuitive understanding of the true complexity of the world, but she was only three, after all, and neither ready nor able to absorb the scientific theory that supported her intuition..From Sparky, Tom Vanadium had borrowed a master key with which he could open the door to Cain's apartment, but he preferred not to employ it as long as he could enter by a back route. The less often he used the halls that were frequented by residents, the more likely he would be able to keep his flesh-and-blood presence a secret from Cain and sustain his ghostly reputation. If too many tenants got a look at his memorable face, he would become a topic of discussion among neighbors, and the wife killer might tumble to the truth..This was not the same card he'd found at his bedside, under two dimes and a nickel, on the night following Naomi's funeral. He had torn that one and had thrown it away.."Last time I looked, Miss Galloway lived to the south of us. Retired. Never married. No children."..He was no longer hopeful that they could have a future together. After sampling the Junior Cain thrill machine, Celestina would want more, as women always did, but the time for a meaningful romance had now passed. For all the anguish he'd been put through, however, he deserved the consolation of her sweet body at least once. A little compensation. Payback..Outside, he realized he hadn't paid for his juice and waffles. When he turned back to the coffee shop, he saw, through one of the windows, an associate of Salk's picking up the check from his table..If this insurance payoff was not mere coincidence, if it was the wealth that had been foretold, then how far behind the fortune did the knave travel? Years? Months? Days?.."I don't just think so. And I don't just know it. I feel it, exactly like you feel all the ways things are. I'll bet you feel it, too."..He was unconscious, wired to a heart monitor, pierced by an intravenous-drip line. Clipped to his septum, an oxygen feed hissed faintly, and from his open mouth rose the barely audible wheeze of his breathing..The crazy bitch wielded it with such ferocity that the force of the impact with the floor, rebounding upon her, must have numbed her arms. She stumbled backward, dragging the chair, temporarily unable to lift it..The telephone was operative, and Vanadium dialed the number of the building superintendent, Sparky Vox. Sparky had an apartment in the basement, on the upper of two subterranean floors, adjacent to the garage entrance.."I suppose anyone could fill some empty gelatin capsules with the syrup," said Parkhurst. "But-" "Roll your own, so to speak. Then he could palm a few of them, swallow 'em without water, and the reaction would be delayed maybe..He fished the sound-suppressor from a jacket pocket, drew the pistol from his shoulder holster, and began to screw the former to the latter. He misthreaded it at first because his hands had begun to shake..When Renee, sweetly oblivious of her looming doom, claimed to have inherited a sizable industrial-valve fortune, Junior thought she might be inventing the wealth or at least exaggerating to make herself more desirable. But when he accompanied her back to her place, he discovered a level of luxury that proved she wasn't a shop girl with fantasies..Darker than water, another stain spread across the lap and down the legs of the pants. It was the color of port wine when filtered through the gray fabric of the jogging suit, but even in her semi-delirious state, she knew that she was not the vessel for a miracle birth, was not bringing forth a baby in a flush of wine, but in a gush of blood.."Well," Kathleen said, "even if the money wasn't so nice, I'd be sorry to see this case end."..Angel found this hysterical, and Agnes said long-sufferingly, "Thank you for the language lesson, Master Lampion."..Paul watched as Barty hopped down from his chair and crossed the busy kitchen in a straight line to the wall phone, without one hesitant move.."Mr. Cain, if he bothers you, would you want me to have his choke chain yanked?".He didn't bother to press Vanadium's hand around the weapon. There wasn't going to be a wealth of evidence for the Scientific Investigation Division to sift through, anyway, when the fire was finally put out: just enough charred clues to allow them an easy conclusion..In adversity lies great opportunity, as Caesar Zedd teaches, and always, of course, there is a bright side even when you aren't able immediately to see it..One moment, girl and yellow vinyl ball. The next moment, gone as if they'd never been..Junior knew that he must remain vigilant. Vigilant and focused until January 12 had come and gone. Eight days to go..Feroocious pirates, ruthless secret agents, brain-eating aliens from distant galaxies, super criminals hell-bent on ruling the world, bloodthirsty vampires, face-gnawing werewolves, savage Gestapo thugs, mad scientists, satanic cultists, insane

carnival freaks, hate-crazed Ku Klux Klansmen, knife-worshipping thrill killers, and emotionless robot soldiers from other planets had slashed, stabbed, burned, shot, gouged, torn, clubbed, crushed, stomped, hanged, bitten, eviscerated, beheaded, poisoned, drowned, radiated, blown up, mangled, mutilated, and tortured uncounted victims in the pulp magazines that Paul had been reading since childhood. Yet not one scene in those hundreds upon hundreds of issues of colorful tales withered a corner of his soul as did a glimpse of Barty's empty sockets. The sight wasn't in the least gory, nor even gruesome. Paul cringed and looked away only because this evidence of the boy's loss too pointedly made him think about the terrible vulnerability of the innocent in the freight-train path of nature, and threatened to tear off the fragile scab on the anguish that he still felt over Perri's death. Always, he was good with Barty, and on this occasion, he teased more than the usual number of smiles and giggles from the boy as he tried to get him to read the Snellen chart on the wall. Then he lowered the lights in the examination room to study his eyes with an ophthalmometer and an ophthalmoscope. Fortunately, the chill fog didn't bum away from the Mercedes, considering that it facilitated the stalking of Celestina. The mist swaddled the white Buick in which she rode, increasing the chances that Junior might lose track of her, but it also cloaked the Mercedes and all but ensured that she and her friend wouldn't realize that the pair of headlights behind them were always those of the same vehicle. After a surgeon had lanced fifty-four boils and cut the cores from the thirty-one most intractable (shaving the patient's head to get at the twelve that were festering on his scalp), and after three days of hospitalization to guard against staphylococcus infection, and after he had been turned back into the world as bald as Daddy Warbucks and with the promise of permanent scarring, Junior visited the Reno library to catch up with current events. When red aces weft followed by disturbing jacks, Agnes had pretended to take her son's card-told fortune lightly, especially the frightful part of it. In fact, a coldness had twisted through her heart. "If you're a dowser, better dowse," said Licky, coming up alongside him and looking sidelong into his face. "And if you're not, you'd better dowse all the same. That way you'll stay above ground longer." She damaged more of Joey's things than her own solely because he was such a big, dear giant, which made it easier to believe that he was constantly bursting out of his clothes. Through her efforts, the Bright Beach Public Library sponsored an ambitious oral-history project financed by two private foundations and by an annual strawberry festival. Local retirees were enlisted to record the stories of their lives, so that their experiences, insights, and knowledge wouldn't be lost to generations yet unborn. Studying the brochure, Junior felt that the best response to this artist's work was to go directly into the bathroom, stick one finger down his throat, and purge himself. Considering his medical history, however, he couldn't afford to be such an expressive critic. An affecting but difficult-to-define note in Dr. Lipscomb's voice brought Celestina slowly out of the office chair, to her feet. Perhaps it was wonder. Or fear. Or reverence. Perhaps all three. Never had the familiar red Bicycle design of the U.S. Playing Card Company looked ominous before, but it was fearsome now, as strange voodoo veve or satanic conjuration pattern. She wanted to tell him not to say these queer things, not to talk this way, yet she couldn't speak those words. When Barty asked her why, as inevitably he would, she'd have to say she was worried that something might be terribly wrong with him, but she couldn't express this fear to her boy, not ever. He was the lintel of her heart, the keystone of her soul, and if he failed because of her lack of confidence in him, she herself would collapse into ruin. open grave. In his hand: the white rose, its thorns slick with his blood. He dropped the bloom, and it fell out of sight, into the gaping earth, atop Naomi's casket. In the end, the reason for the walking was the walking itself. Walking gave him something to do, a needed purpose. Motion equaled meaning. Movement became a medicine for melancholy, a preventive for madness. "Science. Quantum mechanics. Which is a theory ... of physics. But by theory, I don't mean just wild speculation. Quantum mechanics works. It underlies the invention of television. Before the end of this century, perhaps even by the '80s, quantum-based technology will give us powerful and cheap computers in our homes, computers as small as briefcases, as small as a wallet, a wristwatch, that can do more and far faster data processing than any of the giant lumbering computers we know today. Computers as tiny as a postage stamp. We'll have wireless telephones you can carry anywhere. Eventually, it will be possible to construct single-molecule computers of enormous power, and then technology-in fact, all human society-will change almost beyond comprehension, and for the better." Having anticipated a problem of one kind or another, Junior withdrew a packet of crisp new hundred-dollar bills from an inside jacket pocket. The bank band still wrapped the stack, and on it was printed \$10,000. The custom-fitted gold-link band of the wristwatch closed with a clasp that, when released, allowed the watch to slip over the hand with ease. Junior knew at once that the clasp had come undone when his arm tangled in the belt of Neddy's raincoat. The corpse had torn loose and tumbled into the Dumpster, taking Junior's watch with it. Not understanding, thinking that he was inexplicably asking if she loved him, she said, "Yes, of course, you silly bear, you stupid man, of course, I love you." Given a child-size harmonica, he extemporized simplified versions of songs he heard on the radio. The Beatles' "All You Need Is Love." The Box Tops' "The Letter." Stevie Wonder's "I Was Made to Love Her." After hearing a tune once, Barty could play a recognizable rendition. Following a splendid lunch, having just left the fourth gallery on his list and strolling toward the fifth, Junior didn't at once see the source of the quarters. Indeed, when the first three rapid-fire coins hit the side of his face, he didn't even know what they were. Startled, he flinched and looked down as he heard them ring off the sidewalk. A quick tug on each pants cuff revealed no ankle holster, which was how many cops would choose to carry an off-duty piece. As soon as he was alone, however, Junior yearned for the nurse to return. Alone, he felt vulnerable, threatened. Her hands shook as she counted out the fare and the tip from her wallet. "I'm scared sick. Maybe you should just take me right back home." Using the brochure as an ice-breaker, Junior circulated through the throng, seeking anyone who'd attended the murdered would be discounted. And if every death was suspicious to him, then he would quickly lose interest in Junior and move on to a new enthusiasm, harassing some other poor devil. Nevertheless, Thomas Vanadium's hostile ghost, that terrible prickly bur of stubborn energy, wasn't done with Junior yet. Until Bartholomew was dead, the cop's filthy-scabby-monkey spirit would keep coming back and coming back, and it would surely grow more violent. Celestina extended her left hand, which shook so badly that she nearly knocked over both their wineglasses. "I will." By air from San Francisco south to Orange County Airport, then farther south along the coast by rental car, one week in the wake of Paul Damascus and his three charges, following directions provided by Paul, Tom Vanadium brought Wally Lipscomb to the Lampion house.
